- 8- Is there something you already tried that has/hasn't worked? What went wrong?
- 9- Who are your biggest competitors, and do you have any worries about them?
- 10- What makes this project different to others of such kind?
- 11- Where do you envision the project in the next year or five years?
- 12- Do you have any worries about this project?
- 13- How do you personally define the success of this project?

Quantitative Research

What is your age range?

What is your gender?

What E-commerce app do you usually use?

What factors influence your decision to shop online or shop more frequently?

What types of products do you prefer to shop for online?

Which payment method do you most commonly use?

How often do you rely on discounts or promo codes when shopping online?

How important is fast delivery to you when choosing an online store?

What frustrates you most about using e-commerce apps?

Which of these features would you like to see in an e-commerce app?

Competitive analysis

SHEIN

STRENGTH

- **Extensive Product Range**
Noon offers a wide variety of products, including electronics, fashion, groceries, and home essentials. This makes it a convenient one-stop shop for customers with diverse needs.
- **Localized Operations**
Noon tailors its services for the Middle Eastern market, including Egypt, by offering Arabic language support, local promotions, and region-specific services. This approach makes it more appealing to local consumers.
- **Frequent Promotions**
Noon runs major sales events like "Yellow Friday," offering discounts of up to 70%. These frequent deals attract price-conscious shoppers and boost its popularity.
- **Multiple Payment Options**
With payment options such as credit cards, digital wallets, and cash on delivery, Noon serves a wide customer base, especially in Egypt, where cash transactions are common.
- **User-Friendly Search Functionality**
Noon's search bar and advanced filters help users find products quickly. Features like category filtering and relevance sorting enhance the shopping experience.

- **Market Leader**
Jumia is one of the top e-commerce platforms in Egypt, staying ahead by understanding the local market.
- **Localized Promotions**
It offers discounts and deals that match the shopping habits of Egyptian customers.
- **Extensive Logistics Network**
Jumia has a solid delivery system that serves both cities and villages across Egypt.
- **Loyalty Programs**
Programs like Jumia Prime reward regular shoppers, keeping them loyal to the platform.
- **Clear Product Information**
Clear descriptions, specs, and customer reviews help buyers make confident choices.

- **Global Brand Trust**
Amazon's international reputation makes it a reliable choice in Egypt, assuring users of product authenticity and dependable delivery.
- **fast Product Selection**
Amazon offers a vast range of products, including global brands often unavailable on local platforms, making it a one-stop shop.
- **Advanced Logistics**
Amazon's strong delivery network ensures fast shipping and accurate tracking, meeting customer expectations in competitive markets.
- **Seamless Checkout**
Features like one-click buying and smooth payment options make transactions quick and hassle-free.
- **Advanced Personalization**
Amazon uses data to suggest products based on user behavior, making shopping easier and boosting sales.
- **Reliable Delivery Tracking**
Real-time delivery updates keep customers informed and reduce worries about shipment delays.

- **Affordable Fashion**
Shein provides trendy clothing and accessories at low prices, appealing especially to young, budget-conscious shoppers.
- **Personalized Recommendations**
Shein uses browsing history and preferences to suggest products, creating a more enjoyable shopping experience.
- **Wide Product Range**
With a vast selection of fast-fashion items, from clothing to accessories, Shein caters to a variety of styles and tastes.
- **Social Media Presence**
Shein dominates platforms like Instagram and TikTok through influencer collaborations and effective marketing, boosting its visibility and customer engagement.

WEAKNESSES

- **Customer Service Concerns**
Noon often gets complaints about slow responses, unresolved issues, and inconsistent support. This affects customer trust and loyalty.
- **Delivery Issues**
Noon promises fast delivery, but logistical issues often cause delays and order mistakes, leaving customers frustrated.
- **Basic Personalization**
Noon's product recommendations are not as advanced as Amazon's, making them less helpful for users.

- **Delivery Delays**
Deliveries are often slow, especially during big sales like Black Friday, which lowers customer satisfaction.
- **Return and Refund Issues**
The returns process is hard to use, and slow customer service makes it even more frustrating.
- **Too Many Promotions**
Frequent banners and pop-ups can annoy users and make browsing difficult.
- **Inconsistent Design**
The website and mobile app don't always work the same way, which can confuse users.

- **Higher Pricing**
Amazon's prices are often higher than local competitors like Noon, making it less appealing to budget-conscious shoppers in Egypt.
- **Limited Localization**
Amazon doesn't offer as many region-specific features, promotions, or culturally tailored options as local platforms, making it feel less connected to the Egyptian market.
- **Automated Customer Support**
Relying too much on automated systems for customer service frustrates users who prefer talking to a real person to solve their problems.

- **Long Delivery Times**
Shipping to Egypt from international locations often takes a long time, especially during busy shopping seasons.
- **Inconsistent Product Quality**
Customer reviews frequently mention varying product quality, which can make buyers hesitant to trust the platform.
- **Limited Localization**
Shein offers few culturally tailored promotions or region-specific features, making it feel less connected to Egyptian shoppers.
- **Environmental Concerns**
Shein faces criticism for its lack of transparency about its impact on the environment and worker.

UX

- Advantages**
- **Easy Navigation:** Users can quickly browse categories without confusion.
 - **Mobile-Friendly:** The app matches the website for smooth use on all devices.
 - **Push Alerts:** Real-time updates on deals and orders keep users informed.
 - **Trusted Reviews:** Product ratings and reviews help users choose wisely.
- Disadvantages**
- **Customer Support:** In-app support lacks seamless integration, leading to poor assistance.
 - **Slow Performance:** The website struggles during high-traffic events like Yellow Friday.
 - **Limited Accessibility:** The platform lacks features for users with disabilities.
 - **Cluttered Homepage:** Too many banners and pop-ups make navigation difficult.

- Advantages**
- **Local Focus:** Jumia tailors delivery and promotions to local market needs.
 - **Effective Search:** Keyword filters help users find products easily.
 - **Customer Reviews:** User feedback builds trust and guides decisions.
 - **Mobile Access:** The app offers convenient shopping on the go.
- Disadvantages**
- **Performance Problems:** Bugs, slow loading, and inconsistent search disrupt shopping.
 - **Checkout Issues:** Glitches and limited payment options hinder a smooth process.

- Advantages**
- **Tailored Suggestions:** Amazon's algorithms provide personalized recommendations for a better shopping experience.
 - **Easy Navigation:** Clear categories, advanced filters, and autocomplete simplify product discovery.
 - **Mobile-Friendly:** The app matches website features and adds voice search for convenience.
 - **Trusted Reviews:** Verified ratings and reviews guide informed purchases.
- Disadvantages**
- **Upsell Interruptions:** Frequent prompts during checkout disrupt the flow.
 - **Slow Performance:** Heavy images and data slow loading during high traffic.
 - **Overwhelming for New Users:** Too many options create a steep learning curve.
 - **Limited Localization:** Missing region-specific features reduce usability in Egypt.
 - **Checkout Issues:** A multi-step process and glitches hinder smooth completion.

- **Long Delivery Times**
Shipping to Egypt from international locations often takes a long time, especially during busy shopping seasons.
- **Inconsistent Product Quality**
Customer reviews frequently mention varying product quality, which can make buyers hesitant to trust the platform.
- **Limited Localization**
Shein offers few culturally tailored promotions or region-specific features, making it feel less connected to Egyptian shoppers.
- **Environmental Concerns**
Shein faces criticism for its lack of transparency about its impact on the environment and worker.

UI

- Advantages**
- **Modern Design:** Noon's bright yellow theme is visually appealing and recognizable.
 - **Clear Categories:** Well-defined sections make navigation simple.
 - **High-Quality Images:** Sharp visuals boost user confidence in purchases.
 - **Easy Search:** A prominent search bar helps users find items quickly.
- Disadvantages**
- **Visual Clutter:** Too many banners, pop-ups, and ads overwhelm the homepage.
 - **Poor Visual Hierarchy:** Key sections get lost due to competing elements.
 - **No Dark Mode:** Lack of dark mode affects usability during nighttime browsing.

- Advantages**
- **Simple Design:** Jumia's user-friendly interface is well-suited to its local audience, making navigation easy.
 - **Clear Product Display:** Key product details and visuals are emphasized, helping users make quick decisions.
- Disadvantages**
- **Cluttered Layout:** The interface has too many visual elements (bright colors, banners, promotions), which can overwhelm users.
 - **Limited Personalization:** The platform lacks advanced features like tailored product recommendations, offering only basic suggestions.

- Advantages**
- **Professional Design:** Amazon's clean, consistent interface offers a polished look.
 - **Advanced Search:** Filters and sorting make it easy to find products.
 - **High-Quality Visuals:** Detailed descriptions and high-res images enhance the shopping experience.
 - **Prominent Search Bar:** Easy-to-find and intuitive for quick navigation.
- Disadvantages**
- **Generic Design:** Lacks regional or cultural elements, limiting appeal in Egypt.
 - **Visual Clutter:** Too many ads and promotions create a crowded layout.
 - **Limited Local Deals:** Regional discounts aren't highlighted as effectively as competitors.
 - **Overwhelming Interface:** The large number of products and ads can make navigation feel cluttered.

- Advantages**
- **Trendy Design:** Shein's stylish interface appeals to its youthful audience.
 - **Intuitive Navigation:** Categorized browsing makes it easy to explore a large inventory.
- Disadvantages**
- **Overwhelming Inventory:** Too many choices can cause decision fatigue.
 - **Inconsistent Filters:** Filters can be inaccurate, making it hard to refine search results.
 - **Niche Appeal:** Focus on fashion limits appeal for users seeking non-fashion items.
 - **Cluttered Interface:** The large inventory can make navigation challenging for new users.

User Interview

We interviewed 13 users who work in various sectors like IT, Freelance and translation to understand what difficulties they coming across while completing the tasks, so we observed their process for better understanding

Interview Questions

- 1• Can you describe your typical shopping routine?
- 2• How often do you shop online, and for what kinds of products?
- 3• What's your favorite e-commerce app or website? Why do you like it?
- 4• What's the most frustrating experience you've had while shopping online?
- 5• Can you recall a time when you abandoned a shopping cart? What made you leave?
- 6• Do you prefer buying from apps, websites, or visiting physical stores? Why?
- 7• How do you usually search for products? Do you prefer using filters, categories, or search bars?
- 8• How important is personalization (e.g., recommendations based on your interests)?
- 9• What features help you discover new products or brands while shopping online?
- 10• How do you usually pay for online purchases? Are there payment options you prefer or avoid?
- 11• Have you ever faced issues during checkout? Can you tell me about them?
- 12• What makes you trust an app enough to enter your payment details?
- 13• Are there any delivery options you wish existed in e-commerce apps?
- 14• How do you feel about the design of the e-commerce apps you use?
- 15• What do you wish was easier to do in most e-commerce apps?
- 16• Have you ever felt overwhelmed while shopping online? What caused it?
- 17• How important are discounts, promotions, or loyalty programs when shopping online?
- 18• What would encourage you to recommend an app to your friends or family?
- 19• What features do you think an e-commerce app must have?
- 20• How do you feel about notifications from shopping apps? When do they become helpful or annoying?

Empathy Maps

Says

- female 26 years old , single.
- I write a list of everything I need to save money.
- Noon is my favorite because they have great offers and honest reviews
- I abandoned a cart because I realized I didn't need the items or had money issues.
- I prefer physical stores to check materials and sizes.
- Notifications are annoying because I'll buy what I need when I need it.

Thinks

- Getting fake products at the price of originals is frustrating.
- Sorting products by popularity helps me discover new items.
- Refunds should be easier on e-commerce apps.
- Trusted, easy-to-use apps with good reviews are worth recommending.
- Too many offers can be overwhelming.

Does

- Shops online occasionally, focusing on body and hair care products.
- Writes a list to plan purchases and save money.
- Uses search bars and categories to browse products.
- Prefers physical stores for certain purchases, like clothing.
- Trusts popular apps and avoids entering payment details unless necessary

Feels

- Annoyed by fake products and excessive notifications.
- Satisfied when apps offer good deals and honest reviews.
- Overwhelmed by an abundance of offers during sales.
- Comfortable using cash for payments.
- Confident trusting apps with strong reputations.

Says

- Prefers checking several apps and comparing prices to find the cheapest option.
- Prefers reviews with real pictures from customers.
- Wants notifications for discounts and order updates.
- Avoids using his Visa card on new sites without checking reviews first.
- Dislikes overwhelming ads, especially during Black Friday.
- Wants the ability to choose delivery day and time slots.
- Seeks a seamless, distraction-free shopping experience.

Thinks

- Needs a trustworthy platform with clear pricing and delivery options.
- Trusts reviews from real customers and values detailed product information.
- Needs clear navigation in apps, especially when unsure about what to buy.
- Wants apps to notify him at key stages (shipping, delivery) without overwhelming ads.

Does

- Shops online monthly, mainly for electronics, mobile accessories, and clothes.
- Uses filters and price sorting when shopping for clothes.
- Compares prices across apps and picks the cheapest option.
- Relies on reviews with customer pictures to help make decisions.
- Abandons carts when promotional codes or offers are misleading.
- Looks for features like similar products or variations for easier decision-making.
- Enjoys apps that allow him to choose specific delivery dates and time slots.

Feels

- Frustrated by ads disrupting the shopping experience, especially during sales events like Black Friday.
- Cautious about using his Visa card on new websites.
- Overwhelmed and confused by too many offers and unclear categories.
- Reassured by apps showing similar products or variations for easier decision-making.
- Annoyed by misleading offers or unclear promo codes.

Says

- Shops online once or twice a month, mainly for clothes, shoes, makeup, and accessories.
- Prefers Amazon Egypt for its wide variety, helpful reviews, and fast delivery.
- Finds personalization and recommendations essential for discovering new items.
- Discounts and promotions are crucial, and she always looks for deals before completing a purchase.
- Notifications about sales or order updates are helpful, but irrelevant ones are annoying..

Thinks

- Convenience is key, which is why apps like Amazon Egypt are her go-to.
- Trust in an app comes from secure payment systems, buyer protection policies, and reliable customer reviews.
- She wishes for more flexible delivery options, especially in the evenings or weekends.
- Too many options can feel overwhelming, making it difficult to choose between similar products.
- Apps should streamline the shopping experience, with easier comparison tools and a smoother checkout process.

Does

- Browses Amazon Egypt in the evenings, checking new arrivals and deals.
- Uses filters and categories for general browsing but relies on the search bar when she knows what she wants.
- Abandons carts if shipping fees are too high or the total cost exceeds expectations.
- Prefers credit card payments for speed and safety, avoiding cash on delivery.
- Recommends apps with good customer service, fast delivery, and frequent promotions.

Feels

- Frustrated by delivery issues, like damaged items or slow refunds.
- Overwhelmed by excessive product options, especially in fashion and beauty categories.
- Annoyed when the checkout process is difficult or payment fails.
- Satisfied with apps that are clean, easy to navigate, and visually appealing.
- Happy when discounts or loyalty programs save her money.

Persona

Omar

Age: 30
Gender: Male
Occupation: IT Eng
Location: Egypt - Cairo

About Omar

- Omar, a software engineer living in Cairo, frequently shops online for tech gadgets, gaming equipment, and casual clothes. He spends time comparing prices, reading reviews, and looking for trustworthy platforms with clear policies. His busy schedule demands efficient and seamless shopping experiences.

Goals and Motivations

- Efficiency in Shopping: Omar prioritizes platforms with fast navigation, filters, and search tools that allow him to find products quickly.
- Transparency: He values clear pricing, honest reviews with real images, and detailed product descriptions to avoid wasting time on unsuitable items.
- Trustworthy Transactions: Secure payment options, preferably cash-on-delivery or highly trusted Visa methods, are essential for Omar to shop with confidence.
- Tailored Experiences: He looks for apps that provide relevant recommendations and easy comparison tools, especially for electronics and gadgets.
- Control Over Delivery: He appreciates the ability to select delivery slots and receive real-time tracking updates.

Painpoints and challenges

- Hidden Costs: Unexpected charges like unclear shipping fees or taxes lead Omar to abandon his cart.
- Inconsistent Product Quality: Poor product descriptions and mismatched items leave him dissatisfied and skeptical of new platforms.
- Limited Delivery Options: A lack of flexibility in choosing delivery times and delays frustrate him.
- Overwhelming Choices: During sales events, the sheer number of options and unclear categorization make decision-making difficult.
- Ads and Popups: Intrusive advertisements disrupt his shopping experience and create distrust in the platform.
- Slow Customer Service: Unresponsive or unhelpful customer support for returns or order issues leaves him feeling ignored and undervalued as a customer.

Layla

Age: 26
Gender: Female
Occupation: Graphic Designer
Location: Egypt - Cairo

About Layla

- Layla, a freelance graphic designer from Alexandria, is passionate about shopping for beauty products, accessories, and home décor online. She seeks a blend of affordability and quality, often using filters and browsing recommendations to discover trends. Aesthetics and functionality in app design heavily influence her experience.

Goals and Motivations

- Affordable Beauty Finds: Layla searches for affordable beauty and skincare products without compromising on quality. Discounts and promotions are major motivators for her purchases.
- Easy Refund Processes: She values apps with clear return and refund policies to minimize the risks of ordering unsuitable or expired items.
- Enhanced Trust: Secure payment methods and reviews with images from real users make her feel confident about her purchases.
- Efficient Shopping: Apps with simplified navigation, personalized recommendations, and wishlist features keep her engaged and reduce decision fatigue.
- Clear Product Information: Layla depends on detailed descriptions and clear visuals to make confident buying decisions, especially for skincare and cosmetics.

Painpoints and challenges

- Misleading Promotions: Promo codes that don't work or are limited to specific items frustrate her and reduce trust in the platform.
- Poor Product Quality: Receiving expired or damaged beauty products creates dissatisfaction and makes her hesitant to reorder.
- Delayed Deliveries: Layla dislikes waiting beyond the promised time for her orders, especially when purchasing time-sensitive items.
- Confusing Interfaces: Apps with cluttered designs, unclear categories, or complicated filters hinder her ability to shop effectively.
- Return Issues: Complicated return processes or unresponsive customer service leave her stuck with unsatisfactory items.
- Overwhelming Sales Events: Events like Black Friday often confuse her with too many simultaneous offers, leading to decision paralysis or missed deals.

Storyboard

Sarah is excited to order her favorite products, but she's busy during delivery hours

She realizes the app only offers home delivery, with no pickup points or alternative methods

Without flexible delivery options, Sarah feels stuck and unhappy.

What if Sarah could choose a pickup point close to her work or home?

With clear instructions and flexible hours, Sarah feels in control.

Flexible delivery options make Sarah a loyal and satisfied customer

Problem Statement

We applied the 5W approach.

Who	Online shoppers who value easy returns and exchanges.
What	Users find return policies complicated and restrictive.
When	After realizing a product does not meet their expectations.
Where	While reviewing return terms on the app or website.
Why	Users want hassle-free returns to feel confident about their online purchases.

Who	First-time or occasional online shoppers.
What	Users feel overwhelmed by crowded and ad-heavy home pages.
When	Upon opening the app for browsing or purchasing.
Where	On the app or website's home page.
Why	Users need a clear and organized interface to navigate smoothly.

Who	Users who value flexibility in receiving orders.
What	Lack of alternative delivery methods, such as pickup points, frustrates users.
When	During the order completion process.
Where	During the delivery method selection process.
Why	Users need more delivery choices to accommodate their schedules and preferences
